The UK NSC advises ministers and the NHS in England, Wales, Scotland and Northern Ireland about all aspects of <u>screening</u> and supports implementation of

What the UK National Screening Committee (UK NSC) does

screening programmes. Conditions are reviewed against evidence review criteria according to the UK NSC's evidence review process.

Read a complete list of UK NSC recommendations. View the UK NSC's code of practice.

The <u>annual evidence report</u> summarises all the screening recommendations made by the UK NSC during the previous year.

Publications

Meetings

June and October. They are held in London twice a year, with the June meeting

hosted by one of other 3 UK Countries on a rotating basis. Meetings are due to be held on: 28 February 2018 29 June 2018

The UK NSC holds 3 meetings a year to review current decisions and make

recommendations on screening programmes. Meetings are usually in February,

31 October 2018 27 February 2019

- 28 June 2019 30 October 2019
- The UK NSC will usually publish draft minutes and a summary of recommendations

6 weeks after the meeting.

For minutes from before 2015 please see the <u>national archives website</u>.

Read recent <u>UK NSC meeting minutes and see upcoming agendas</u>.

Reference groups

as provide a reference group for issues relating to the implementation and improvement of screening programmes. This includes cross-cutting and programme specific issues.

Fetal, newborn, children group membership **Professor Bob Steele Dr Graham Shortland Claire Bailey** Member Chair Vice Chair
